DETAILED ACTION

Response to Amendment

Examiner acknowledges response by applicant's representative received 7/21/04. Examiner further acknowledges the corrections/clarifications made to address the issues of the first action.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Kail (797).

Kail discloses a Method And Apparatus For Conducting Games Of Chance.

Regarding claim 1

Kail teaches a game of chance played in conjunction with sports contests, a plurality of pre-printed game cards with sports events and predicted outcomes

Art Unit: 3711

(see abstract, figure 1 & col. 2, lines 40-43), determining actual statistics of the sports event (col. 2, lines 44-48) and the awarding of prizes col. 3, lines 46-67).

Regarding claim 2

Kail teaches that the final statistics is the combined score (col. 2, lines 47-48).

Regarding claim 3

Kail teaches that the prize increases relative to the number of correct predictions per card (col. 3, lines 57-61).

Regarding claim 4

Kail teaches that one of the games could be American Football (see abstract & figures 7a-11).

Response to Arguments

Applicant's arguments filed 7/21/04 have been fully considered but they are not persuasive. Applicant has amended independent claim 1 to include language that specifically addresses the free distribution of game cards. The cited reference to Kail teaches that his game cards are available free without the payment of his entry fee (see col. 3, lines 10-16). Applicant's amendment fails to

place the application in condition for allowance since all the limitations of the claims have been met.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure and are cited to show the state of art with respect to features of the claimed invention.
